

Effective Date: December 20, 2024

Rate Schedule IS & ISL

SUBJECT:

Irrigation Service

AVAILABILITY:

Available to consumers for service to irrigation pumps, subject to the established rules of the seller.

TYPE OF SERVICE:

Single phase or three phase, 60 cycle, at available secondary voltages. Reduced voltage starting equipment will be required on electric motors if the voltage dip criteria (as specified in the Schedule entitled "Electric Motor Starting on Mid-Yellowstone Electric Cooperative's Lines"-Policy Bulletin 307) is exceeded.

CONDITIONS OF SERVICE:

- Motors having a rated capacity in excess of ten horsepower (10 HP) must be three phase, unless otherwise approved by the Cooperative.
- All wiring, pole lines, and other electrical equipment beyond the service point will be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.

MONTHLY RATE: Applies to the billing months of April-October

Services Less Than 200 HP (<200 HP)

- Facility Charge \$42.50 – Only Billed May-October
- Energy Charge \$.088
- Demand Charge \$10.100

Services Greater Than 200 HP (>200 HP)

- Facility Charge \$64.00 – Only Billed May-October
- Energy Charge \$.086
- Demand Charge \$10.100

BILLING DEMAND CHARGE:

The Demand charge is based on each member's maximum 15-minute demand on the cooperative's distribution system each month. Demand is measured in kilowatts (kW). Members are billed according to kW of demand for their rate. If a service does not have a demand meter, then billing will be determined by nameplate horsepower.

AID TO CONSTRUCTION:

An Aid to Construction charge will be assessed according to the Line Extension Policy.

TERMS OF PAYMENT:

The above rates are net, the gross rates being 5% higher. In the event the current monthly bill is not paid within fifteen (15) days from the date of the bill, the gross rates shall apply. If the bill is unpaid in 25 days, service is subject to disconnection and a reconnect fee of six times the current base charge.

If any irrigation electric bill or portion thereof is delinquent for three (3) or more months, a prepayment, calculated on the amount of anticipated pumping bills, will be required before such irrigation installation will be connected for the next irrigation season.

All electric bills, including but not limited to irrigation, that are delinquent must be paid by the consumer before such consumer's irrigation service will be connected for irrigation season.

RATE ADJUSTMENTS:

Rate adjustments upward or downward, reflecting power costs, tax changes, changing economic conditions, and other costs will be made by the Board of Directors to keep the Cooperative in a sound financial condition.
